Hassan El-Sherif

Cloud & Infrastructure Engineer | AWS | Linux | DevOps

Cairo, Egypt | +201027683977 | hassanelsherif73x@gmail.com | hassanelsherifx | Portfolio

PROFESSIONAL SUMMARY

Cloud & Infrastructure Engineer with 3+ years of experience across cloud infrastructure, system administration, and enterprise application support. Hands-on experience with AWS, Linux, infrastructure monitoring, troubleshooting, database operations, and backup management. AWS Solutions Architect – Associate and Cloud Practitioner certified. Developing DevOps engineering expertise through practical projects involving Docker, Kubernetes, Terraform, and CI/CD automation.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, IAM, VPC, CloudWatch, Lambda, CloudFormation)

Operating Systems: Linux, Windows Server

Infrastructure & Operations: System Administration, Infrastructure Monitoring, Troubleshooting, Backup & Recovery, High Availability

Networking: TCP/IP, DNS, SSH, Network Troubleshooting

Scripting: Bash, Python

Databases: PostgreSQL, MySQL

DevOps: Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, Git

PROFESSIONAL EXPERIENCE

Cloud & Infrastructure Engineer, Shelter Technology **03/2025 – present** | **Cairo, Egypt**

- Manage and support AWS cloud infrastructure hosting AI-powered computer vision applications.
- Monitor infrastructure health, investigate service disruptions, and troubleshoot application and infrastructure issues.
- Support cloud resource optimization and infrastructure cost management.
- Participate in infrastructure maintenance, operational improvements, and service availability activities.

System Administrator, Shelter Technology **03/2024 – 03/2025** | **Cairo, Egypt**

- Supported enterprise infrastructure operations and system administration activities.
- Coordinated a team of four engineers and contributed to operational procedures, on-call coordination, and troubleshooting.
- Monitored system performance and investigated infrastructure and application bottlenecks.
- Automated PostgreSQL reporting workflows using JasperSoft Studio, reducing manual reporting work by approximately six hours per week.

IT Technical Support Engineer, Shelter Technology **03/2023 – 03/2024** | **Cairo, Egypt**

- Provided first- and second-line technical support for enterprise applications and infrastructure.
- Performed routine maintenance, backup verification, and system health checks.
- Troubleshot PostgreSQL and MySQL database issues and supported query performance improvements.
- Assisted with availability checks, failover testing, and recovery documentation.

EDUCATION

AWS Cloud Computing Bootcamp, ALX **01/2025 – 10/2025** | **Cairo, Egypt**

Developed hands-on cloud skills through practical labs covering AWS services, Linux systems, networking, cloud security, and infrastructure management, with focus on real-world cloud deployment practices.

Bachelor's Degree in Computer Science, El-Shorouk Academy **09/2017 – 06/2021** | **Cairo, Egypt**

Completed coursework in programming, data structures, algorithms, database systems, networking, and software engineering, with practical exposure to developing technical solutions and academic projects.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (2025)
- AWS Certified Cloud Practitioner (2025)
